

## Project Description

Name	2016 Seminar on Value-Added Fishery Product Development and Market System Construction for Developing Countries		
Organizer	Fujian Institute of Oceanography		
Time	2016-05-12 to 2016-06-01	Language	English
Invited Countries	Developing Countries (Invitees are governmental officials, technicians, enterprise supervisors and professional personnel engaging in fishery production, fisheries management, fishery investment, fishery development planning, value-added fishery product development, processing and circulation of aquatic product, etc.)		
Number of Participants	20		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; under 50 for officials at director general's level.	
	Health	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language	Capable of listening, speaking, reading and writing in English	
	others	Family members or friends shall not follow	
Host City	Xiamen City, Fujian Province	Local Temperature	Spring with average temperature of 26℃ to 32℃
Cities to visit	Beijing City, Ningbo City and Zhoushan City of Zhejiang Province, Quanzhou City, Shishi City, Jinjiang City, Dongshan County, Zhangzhou City of Fujian Province	Local Temperature	Average temperature in May is 14℃-26℃ in Beijing City, 17℃-25℃ in Ningbo City and Zhoushan City. Quanzhou City, Shishi City, Jinjiang City, and Dongshan County of Zhangzhou City have the similar climate as the one in the host city.
Notes	In order to have better communication with Chinese officials/experts/entrepreneurs, please prepare communication materials related to the seminar theme, for example, 1. Basic national status: administrative organs and managerial methods of governmental maritime sectors, profile of sea area and marine fisheries resources situation (especially the fishing grounds & the main catch targets); 2. Fishery production: marine fishing, mariculture, fisheries infrastructure construction, trade and processing of aquatic products; 3. Marine economic development planning and strategy; 5. Marine related policies, laws and regulations; 6. International cooperation: main cooperative countries, present cooperation ways and management modes in marine related industries.

	Telephone	0086-592-5751918 (Ms. Zhang), 0086-592-6013987 (Ms. Ma)	
	Cell	0086-15860723629 (Ms. Zhang), 0086-13806012855 (Ms. Ma)	
	Fax	0086-592-5751918 (Ms. Zhang), 0086-592-6013987 (Ms. Ma)	
	E-mail	summer_0917@163.com (Ms. Zhang), training_fjio@126.com (Ms. Ma)	

About the Organizer	<p>Fujian Institute of Oceanography (FJIO), located in Xiamen - a special economic zone lying in the southeastern coast of China, is a full-funding public institution affiliated to Fujian Provincial Department of Science &amp; Technology, as well as a non-profit comprehensive maritime research and development institution. Its scientific research building (also the administration building) covers a building area of 3,671 m<sup>2</sup> with fine-equipped laboratories and scientific research facilities. In addition, FJIO owns “Yan Ping No.2” oceanographic research vessel with a displacement of 800 tons. In the process of offering the main service to the governmental marine management and social marine development, FJIO has accumulated rich research technology and professional experience in the fields of Mariculture, Integrated Coastal Management, Marine Fisheries Management as well as Marine Economic Sustainable Development.</p> <p>Since 2005 when FJIO started to undertake the China-Aid training programs sponsored by the Ministry of Commerce, PRC, FJIO has successfully organized 54 bilateral or multilateral training courses/ seminars/ workshops of China-Aid training programs which focus on the following 6 program topics - Training Course on Mariculture Technology, Seminar on Integrated Coastal Management, Seminar on Marine Fisheries Management, Seminar on Marine Fisheries and Integrated Coastal Management, Ministerial-level Workshop on ICM and City Development as well as Ministerial Workshop on Integrated Marine Management and Development of Blue Economy for Developing Countries. The working languages include English, Portuguese, French, Spanish and Arabic, and so forth. There are 1459 ministerial or director level officials and technical personnel (1508 person-times, including 6 ministerial level and 17 vice-ministerial level officials), from 98 developing countries along with Portugal and 1 regional international organization (League of Arab States) of 5 continents worldwide, participating FJIO’s training programs. The above programs organized by FJIO have been all popular with the participants and received high reputation.</p>
Seminar Content	<p>The seminar will adopt the methodology of professional lectures, experienced teaching, communication &amp; discussion, practice &amp; investigation and so on. The courses will be conducted by multimedia teaching as well as the combination of case analysis and Q&amp;A. The seminar contents will be systematically involved the advanced practice and useful experiences of value-added fishery product development and market system construction of China. The seminar will compose of many modules such as Brief Introduction on Chinese Situation, Economy and Trade, Culture and Customs, Development Status of Aquatic Product Processing and Comprehensive Utilization in China, Status Quo and Prospects of Aquatic Product Circulation in China, Development Strategy of Value-Added Fishery Product Based on Aquaculture, Processing and Market System Construction, Development Situation and Market System Construction of Fisheries Economy in Fujian Province and so on. The supervisor will invite officials and experts who respectively come from FJIO, Xiamen Municipal Bureau of Commerce, Third Institute of Oceanography, SOA, Jimei University, Fujian Provincial Department of Ocean and Fisheries, Oceans &amp; Fisheries Bureau of Xiamen, SeaShine Aquatic Group, Quanzhou Oceanic and Fishery Bureau, Dongshan Ocean and Fisheries Bureau and other relevant departments to have communication with participants. Participants will also attend “The 11<sup>th</sup> China International (Xiamen) Fisheries Expo”, and inspect aquatic products processing enterprises, big aquatic product wholesale market and national central fishing port as well as exchange and discuss with enterprise supervisors and governmental officials from marine and fisheries departments in Zhoushan City of Zhejiang Province, Quanzhou City, Zhangzhou City of Fujian Province, etc.</p> <p>In addition, the supervisor will organize participants to visit some of Xiamen’s demonstration cases on ICM - Gulangyu Island, Island Ring Road, etc., the starting place of Maritime Silk Road - Quanzhou City, the capital of China- Beijing, the modern and international port city - Ningbo and so forth, in order to enable participants to know more about open China and friendly Chinese people comprehensively.</p>
