

Project Description

Name	Seminar on Seawater Desalination and Comprehensive Utilization for Developing Countries, 2016		
Organizer	Tianjin TEDA Group Co., Ltd		
Time	2016.4.27—2016.5.17	Working Language	English
Invited Countries	Officials who work in the field of energy, environmental protection, marine resources, geology, agriculture, planning, finance and other related fields.		
Number of Participants	20		
Requirements for the Participants	Age	Under 50 for director general’s level; under 45 for division director’s level	
	Health	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China’s laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant	
	Language	Capable of listening, speaking, reading and writing in English	
	Others	Family members or friends shall not follow	
Host City	Tianjin	Local temperature	Spring &Summer, average 15℃-28℃
Cities to Visit	Beijing, Shanghai,	Local temperature	Beijing average 15℃-28℃ Shanghai average: 16℃-30℃
Notes	No.		
Contact of the Organizer	Contact persons	Mr. Wenhan, Ms. Zhang Ping	
	Telephone	+86-22-23300776, +86-22-23300767	
	Cell	+86-13920822423(Wenhan), +86-13803095869(Zhang)	
	Fax	+86-22-23300783

About the Organizer	The headquarter of Tianjin TEDA Group Co., Ltd is located in Tianjin Binhai New Area. With a total asset of more than RMB 40 billion, Tianjin TEDA Group Co., Ltd is a comprehensive, multi-functional large-scale state-owned enterprise group with modern enterprise system approved by CPC Tianjin Municipal Committee and Tianjin government. Supported by Tianjin Binhai New Area and Tianjin Economic and Technological Development Area, Tianjin TEDA Group Co., Ltd stick to taking serving regional development as its task, strive and forge ahead with determination, which forms two industrial platforms such as regional development and real estate and modern services. At present, Tianjin TEDA Group Co., Ltd has got 1 listed company and 43 exclusively-invested companies, stock-holding companies and share-holding companies. In accordance with the development strategies of Binhai New Area and Development		

	<p>Area, Tianjin TEDA Group Co., Ltd focuses on land resource and diversified equity rights by connecting domestic and international capital markets. Now the Group has become the most powerful urban operation enterprise in Tianjin.</p> <p>Since 2004, authorized by Ministry of Commerce of China, we have successfully organized 93 seminars focusing on topics such as the Construction and Management of Development Area, the Policy and Management of Free Trade Zone, Port Management and Seawater Desalination and Multipurpose Utilization and so on and the seminars have got well received by the officials from 120 developing countries in Africa, Asia and Oceania.</p>
Seminar Content	<p>At present, the utilization of seawater has helped to solve the problem of the shortage of fresh water and to promote the economic sustainable development, which has a practical and strategic significance. China's seawater utilization enjoys a sound development. The seawater utilization technology is improving; the cost of seawater use is lowering; a water system, with water-saving as its core, is taking shape.</p> <p>Through lectures and tours, the seminar will help the attendants better understand the development of seawater desalination and multipurpose utilization, master the project planning, know about the environmental impact and inspection of the project and view the expanding application and multipurpose utilization of the project. The seminar contains 16 lectures on the following subjects: General Situation of Water Resources, Technology of Seawater Desalination and Multipurpose Utilization, Seawater Intake and Pretreatment, Project Planning, Feasibility Study of the Project, as well as the Design, Inspection, Assess, Operation, Maintenance and Post-treatment Inspection and Supervision of the Project. The seminar also includes 5 inspection tours on local enterprises in Tianjin, Beijing and Shanghai.</p>
