About the Organizer	<p>Shanghai Education and Training Center of Commerce(referred to as Center), which was designated by the Chinese Ministry of Commerce as the training base for international business officials, is one of the sponsors of the education and training joint conference across national commercial field. The training center is composed of three campuses, Guoquan campus, located in Yangpu district, Fuzhou campus, located in Huangpu district, near the Bund area, and Xinzha campus, located in Jing'an district. In 2010, the center was authorized by the Chinese Ministry of Commerce as one of the training bases for international business officials. We are focusing on “intensifying internal management and brand construction” to facilitate the foreign aid training capability, constantly intensifying internal standardized management, emphasizing management system construction, prolonging service chain, as well as highlighting people-oriented service and creating an atmosphere of Chinese Alma Mater for officials from various countries. Aiming at “bridging friendship, serving foreign affairs, improving training quality and emphasizing training efficiency”, we are making the greatest efforts to construct the Shanghai training base for international business officials as one of the most influential training organizations for foreign aid.</p> <p>Under the leadership of the Chinese Ministry of Commerce and Shanghai Municipal Commission of Commerce and in the close cooperation with some relevant institutes, the center had successfully held 63 seminars for international business officials by the end of 2015, providing training service for 1,488 officials from 120 countries and regions in total, which has brought out excellent training effects and has been highly appreciated by all the participants.</p>
Seminar Content	<p>Designated by the Chinese Ministry of Commerce, Shanghai Education and Training Center of Commerce will host 2016 Seminar on International Environment Dispute and China Environment Policy for Developing Countries from October 26 to November 15, 2016.</p> <p>The Seminar includes three parts: Keynote lectures, workshops and field trips. The lectures primarily cover the following areas: A General Review of China, The Settlement of International Environmental Dispute and A introduction of China's Environmental Policy etc..</p> <p>The course will adopt discussion-based teaching, case studies and interactive model, while stressing the integration of teaching and practice. As a part of the seminar, working sessions with some local environmental organizations as well as cultural visits will be arranged. Besides, a 5-day field trip to Shenzhen and Zhuhai, the frontiers in China's reform and opening-up, will also be arranged to help the participants better understand China's achievement in environmental protection and economic development .</p> <p>During the seminar, participants will share the successful experience in environmental issues and find solutions to the common challenges through targeted teaching and interactive discussions. The seminar also aims at building up a good platform for participants to broaden their horizons, exchange ideas and enhance managerial ability.</p>
