

## **URBAN SOLID WASTE MANAGEMENT**

**13 TO 17 FEBRUARY 2017**

Sponsored by the

### **SINGAPORE COOPERATION PROGRAMME**

under the

### **SINGAPORE COOPERATION PROGRAMME TRAINING AWARD/ SMALL ISLAND DEVELOPING STATES TECHNICAL COOPERATION PROGRAMME**

to be conducted by

### **SINGAPORE ENVIRONMENT INSTITUTE – NATIONAL ENVIRONMENT AGENCY**

---

#### **Singapore Cooperation Programme**

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries. To date, Singapore has sponsored training courses and study visits for over 100,000 officials from more than 170 countries. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

#### **Singapore Environment Institute, National Environment Agency**

Singapore Environment Institute (SEI) is the training and knowledge division of the National Environment Agency (NEA). Within NEA, SEI distills and documents the knowledge residing with experienced staff, as well as knowledge from other relevant sources, for transfer to the next generation of officers via its training programmes.

The Institute also develops and up-skills the local industry's manpower capabilities, thereby adding value to Singapore's environmental arena. SEI's public lectures feature renowned environmental speakers who catalyse thought leadership and foster communities of best practices. SEI's collaborations with, and strong support from industry, academic and government organisations, are instrumental to its goal of "Advancing Knowledge in Environmental Sustainability".

## Course Objectives
