## KOICA & CIAT

---

### *KOICA*

*The Korea International Cooperation Agency (KOICA) is a development aid agency of the Republic of Korea which was established in 1991. KOICA's mission is to reduce poverty, promote living standards and help realize sustainable, equitable and inclusive development in developing countries. To accomplish its mission, KOICA has been actively involved in enhancing developing countries' socio-economic infrastructure and institutions, empowering and providing the people of the developing world with opportunities for better lives and improving their well-being.*

### **CIAT(Capacity Improvement & Advancement for Tomorrow) Programs**

Human Resource Development (HRD) has been one of the most important factors in Korea's escape from the vicious cycle of poverty and underdevelopment which had existed for many decades. With scarce natural resources, HRD played a vital role in Korea's development; thus, Korea has emerged as an exemplary showcase of national development powered by HRD. From its own experience Korea came to fully recognize the significance of HRD. With extensive experience and know-how in HRD, Korea contributes greatly to the international community by sharing its unique development experience with other countries.

The CIAT Program provides opportunities to participants to gain first-hand knowledge of Korea's development experience. The programs are designed to enable the participants to apply what they have learned for the development of their home countries. Since 1991, KOICA has offered about 3,700 courses to more than 58,000 participants from 172 countries. There are a wide range of topics in the Program, including public administration, economic development, science and technology, agriculture and health, etc. In order to meet the changing needs of partner countries, KOICA always strives to renovate and improve its HRD programs.

## **Part I**

## **PROGRAM OVERVIEW**

**1. Title:** Modernization of Traditional Medicine

**2. Duration:** May 11 (Thu.) – May 31(Wed.), 2017

※ The contents of the module are subject to change.

## **Part III**

# **PREPARATION OF COUNTRY REPORT**

### **1. GUIDELINES FOR THE PREPARATION OF THE COUNTRY REPORT**

Program participants are requested to prepare and submit their country report individually or as a group to the KIOM (Korea Institute of Oriental Medicine) Training Manager via e-mail at [harim1223@kiom.re.kr](mailto:harim1223@kiom.re.kr) by **May 5, 2017**.

Note. The KOICA's Fellowship Program includes a 'Country Report' session where participants have an opportunity to analyze each country's current status and circumstances in the program subject and share it with other participants and Korean experts. It aims to provide appropriate solutions and insights to the identified problems and issues of their countries.

The Country Report should be in MS PowerPoint. The length of the report should not exceed thirty pages and be written in English.

All participants are required to give a 15-minute presentation on their country report individually or as a group. For more effective presentations, a projector will be available.

### **2. TOPICS TO BE COVERED IN THE COUNTRY REPORT**

At the beginning of the training course, all participants will make an individual or group presentation titled "Country Report" following the guidelines below:

Based on what you have presented and discussed throughout the courses, you are requested to present an action plan on the last day of the workshop.

Please refrain from focusing on the introduction to the general information of your country (climate, population, history, religion, etc.) but try to introduce the following topics.

#### **A. General overview of traditional medicine situation**

- **Current situation of traditional medicine in your country**

- Practice, insurance, education, industry, research and development, etc.

- **Basic information of Ministry/Department of Health and your organization**

- The Ministry/Department's service delivery structure chart including the number of workers.

- General overview of your institution/organization, such as history, personnel, main role, etc.

- **Strategic policies**

- Government policies, laws, and regulations on traditional medicine.  
(Short-term or long-term plans: goals, priorities, strategies, etc.)

- **Statistical data on the following information (Please indicate the source of the data).**

- Number of traditional medicine education institutions, professors, and students
- Number of traditional medicine hospital/clinics and doctors
- Percentage of the traditional medicine usage
- Breadth of insurance coverage for traditional medicine

## **B. Current issues & problems related to traditional medicine**

- **Challenges ahead**

- Current issues and problems that are holding back traditional medicine from development.
- Propose inter-institution/organization or inter-countries collaborating model for the development of traditional medicine

## **Part IV**

## **PREPARATION OF ACTION PLAN**

### **1. GUIDELINES FOR PREPARATION OF THE ACTION PLAN**

All participants are requested to prepare a presentation on their action plan individually or as a group at the end of the course. The action plan is to identify each country's current problems and propose appropriate solutions in order to solve these problems.

The participants are encouraged to make the most of their weekends and leisure time to further their knowledge acquired from the program and better prepare their presentation for the action plan.

### **2. TOPICS TO BE COVERED IN THE ACTION PLAN**

- a) Identify various problems related to your country's current issue on traditional medicine.
- b) Devise the best way to solve problems and make proposals.
- c) Consider how it will affect the current problems and what advantages it will bring in the future.

## Part V

## USEFUL INFORMATION

### 1. IMPLEMENTING AGENCY

Korea Institute of Oriental Medicine (<http://www.kiom.re.kr>)

KIOM is located in Daejeon, in the center of South Korea. KIOM, a government-funded research institute, aims to establish Korean Medicine as an advanced science for the promotion of the health of Koreans and to globalize the knowledge and experience of Korean Medicine for the better health of humanity. Since its establishment in 1994, the institute not only conducts research and development on its own, but works in close partnership with health and research organizations abroad to promote the awareness of Korean Medicine. In addition, KIOM has been trying to share information and experience on traditional medicine with developing countries especially in the Western Pacific Region. KIOM has been designated as WHO Collaborating Centre for Traditional Medicine since March, 2011.

## 2. REGULATIONS

- Participants should participate in the program to the best of their abilities
- Participants should refrain from engaging in political activity or any form of employment for profit or gain
- Participants must return to their home country upon completion of the program and resume work in their country
- Participants should not extend the length of the program or stay for personal convenience
- Participants are not permitted to change the flight schedule arranged by KOICA for personal convenience
- Participants should not be accompanied by any member of their family
- Participants are to assume responsibility for any personal expenses incurred regardless of implementation of the course
- Participants are required to strictly observe the course schedule and abide by the rules and regulations stipulated by the Korean government in respect to the program
- Participants should cooperate in preventing any sexual harassment and attend a short training session regarding 'Sexual Harassment Prevention' on the first day of KOICA orientation.

## Appendix 1.

### Brand Name of the KOICA Fellowship Program

KOICA has launched a brand-new name for the KOICA Fellowship Program in order to more effectively raise awareness about the program among the public and its partner countries.

In English, CIAT stands for Capacity Improvement and Advancement for Tomorrow and in Korean it means "seed (씨앗)" with hopes to contributing in the capacity development of individual fellows as well as the organizations and countries to which they belong.
