### **Singapore Cooperation Programme**

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, Singapore has sponsored training courses and study visits for over 100,000 officials from more than 170 countries. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

### **Civil Service College**

The Civil Service College (CSC) plays a pivotal role in nurturing and developing the Singapore Public Service to meet challenges of the future. Its mission is to develop a first-class Public Service through training and development. CSC endeavours to be the heart of learning excellence and development for the Public Service in Singapore.

CSC works closely with government ministries and public sector agencies to embed values, communicate public sector directions and manage change in individuals and organisations. It also partners public and private sector organisations, academic institutions and international government agencies to exchange best practices and experiences in leadership, policy development, public administration, and public service reform.
