

“Management of Antiretroviral Treatment (ART) and Long-term Adherence to ART”

15 – 26 May 2018

Closing date for application : 28 February 2018

TICA : Thailand International Cooperation Agency

is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programmes. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

AITC : Annual International Training Course

was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programmes. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely; **“Sufficiency Economy Philosophy”** or SEP, **Food Security, Public Health, Climate Change, and Other topics related to Sustainable Development Goals (SDGs).**

**International Training Center on AIDS, TB and STIs,
Department of Disease Control,
Ministry of Public Health**

International Training Center on AIDS, TB and STIs was established in 2004 to conduct international training courses on AIDS, TB and STIs, one of the most pressing international health agendas. This training course was originally formulated in 1977 and was continuously conducted by the Ministry of Public Health with an aim to share Thailand's accumulated experience and expertise in sexually transmitted infections case management for clinicians and health professionals from Asian countries and beyond.

AITC Theme : Public Health

This training course falls under the AITC theme – “Public Health”. We believe that health is a very important component for economic and social development, national security, regional and global stability. In the post 2015 context, health has been increasingly recognized as a key contributor in development as good health is one of the fundamental building blocks of society and sustainable development. From improved quality to inclusive healthcare system, Thailand has been sharing our experience and lesson-learned with developing partners on the road to achieve health-related Sustainable Development Goals (SDGs).

Course Objectives

This training course aims at sharing Thailand's experiences in implementing Antiretroviral Treatment (ART) programme in tackling with HIV/AIDS problem. At the end of this course, participants are expected to;
