TRAINING PROGRAMME

CENTRE FOR INSTRUCTOR AND ADVANCED SKILL TRAINING (CIAST)

CIAST is an acronym for the Centre for Instructor and Advanced Skill Training. CIAST is the forefront institute in the Ministry of Human Resources and one of the leading organizations in development and enhancement trainers of skill training in Malaysia. The idea of CIAST was first mooted by the Malaysian Government in 1979.

CIAST conducts various courses for participants from other vocational training institutes, domestic industries and international countries and this has been a tradition with the Ministry where human resources is the biggest and most important asset. The centre offers courses in instructor training, supervisory training and advanced skill training for skills instructors, industrial supervisors and coaches and industrial skilled workers from the private and public sectors as well as international level. Training programs at the centre are conducted by experience instructors with various technical backgrounds.

CIAST is located in Shah Alam, the state capital of Selangor which is also known as the 'Orchid City' of Malaysia. It is 25km away or about half an hour's drive from Kuala Lumpur, the capital of Malaysia and about one hour's drive from Kuala Lumpur International Airport (KLIA).

MALAYSIAN TECHNICAL COOPERATION PROGRAMME (MTCP)

The Malaysian Technical Cooperation Programme (MTCP) was first initiated at the First Commonwealth Heads of Government Regional Meeting (CHOGRM) in Sydney in February 1978. It was officially launched on 7 September 1980 at the Second Commonwealth Heads of Government Regional Meeting (CHOGRM) in New Delhi, India, to signify Malaysia's commitment to South-South Cooperation, in particular Technical Cooperation among Developing Countries (TCDC).

The MTCP emphasizes the development of human resources through the provision of training in various areas which are essential for a country's development such as public administration, good governance, health services, education, sustainable development, agriculture, poverty alleviation, investment promotion, ICT and banking. Annually, MTCP collaborates with its leading Training Institutions to conduct capacity building programmes in various key areas of development. Since its inception in 1980, more than 32,800 participants from 143 recipient countries have benefited from the various programmes offered under the MTCP.

MTCP COURSE OFFERED FOR 2018

Fiber Optic Technology and Cabling Installation

The course is designed to provide participants with technical concept of optical fiber communication technology and principles, perform activities such as fiber terminating, splicing, installing, testing and troubleshooting practices widely accepted in the fiber optic industries.
