

Course Overview

This training program aims to cater the human capital development program. It can be considered as a skill upgrading or retraining program especially to those involved in less relevant industries or training provider personnel. This course can be considered as a countermeasure approach to human capital development process to maintain sustainability in economic expansion.

The main focus of this course is knowledge development on the concepts and techniques applied on pneumatics control and maintenance. In pneumatics control and maintenance, participants are required to acquire skills in the various levels of pneumatics system, from the basic design pneumatic circuit, planning and implementation, managing the maintenance of pneumatics system from various resources up to performing of troubleshooting and maintenance.

Course Objectives

- To provide participants with ample knowledge of pneumatic control and maintenance.
- To enable participants with the ability to apply the basic design pneumatic circuit, planning and implementation.
- To enable participants to manage and maintain the pneumatics system from various resources up to performing of troubleshooting and maintenance.

COURSE MODULE

Topics :

Pneumatic Controls and Maintenance

- Fundamental of pneumatics and symbol standard
- Pneumatics control and air generation.
- Pneumatics control circuit with using pneumatics components.
- Sensor application and maintenance pneumatics equipment.
- Computer interface with PLC control.

Benchmarking and Educational Visits

- Benchmarking Educational Visits to corporate training centres.
- Educational visit to national historical sites and to the capital city.

Background of the Malaysia Technical Cooperation Program (MTCP)

The Malaysian Technical Cooperation Program (MTCP) was first initiated at the First Commonwealth Heads of Government Meeting (CHOGM) for Asia Pacific Region in Sydney in February 1978. It was officially launched on 7 September 1980 at the Commonwealth Heads of State Meeting in New Delhi to signify Malaysia's commitment to South-South Cooperation, in particular Technical Cooperation among Developing Countries (TCDC). In line with the spirit of South-South Cooperation, Malaysia - through the MTCP - shares its development experiences and expertise with other developing countries. To date, MTCP has extended its recipient of countries to more than 141 developing nations for training within its ten (10) key areas. Since its inception, more than 30,686 participants from more than 141 recipient countries have been directly trained under MTCP.

Objectives of MTCP

- To share Malaysia's development experience with other countries;
- To strengthen bilateral relations between Malaysia and other developing countries;
- To promote South-South cooperation (SSC);
- To promote technical cooperation among developing countries (TCDC)

TRAINING INSTITUTE:

JAPAN MALAYSIA TECHNICAL INSTITUTE (JMTI)

The Japan Malaysia Technical Institute (JMTI) situated in the state of Penang, Malaysia is given the responsibility to provide a post-secondary training and tertiary technology education to supplement the shortage of workforce, and to be the ladder for existing skill workforce to upgrade and further their vocational training and education to the highest standards and achievements towards meeting the skilled manpower requirements in high technology industries and vision 2020.

JMTI offers advanced courses in Engineering Technology comprises of five (5) main fields of study which are Computer, Electronic, Mechatronic, Manufacturing and Precision Machining. The main objective of JMTI is to produce well-trained industrial technologist with engineering knowledge and high technical skill especially in the field of engineering which prepares the trainees to adapt and face the challenges of rapid growing technology in line with the advancement and changes of globalization.

MALAYSIAN TECHNICAL COOPERATION PROGRAMME (MTCP) 2018

2 September 2018 – 15 September 2018

PNEUMATICS CONTROL AND MAINTENANCE

DEADLINE:
27th July 2018

TARGETED PARTICIPANTS:

This training programme is offered to participants who possess practical experience of more than three (3) years in related computer fields, from among the following countries: all Malaysian Technical Cooperation Program (MTCP) recipient countries. Participants should be nominated by the Government of the respective countries.

ENTRY REQUIREMENTS:

To be eligible to apply, applicants of the course are obliged to fulfil the following requirements:

- Preference will be given to applicants with practical experience of more than three (3) years in related computer fields;
- Nominated by the Government of the respective countries;
- Must be citizens from the following countries: all Malaysian Technical Cooperation Program (MTCP) recipient countries. Should be at the age of under 45 at the commencement of the course;
- Had not participated in any course under MTCP;
- Should possess a fairly good command of the English Language (both spoken and written abilities);
- Medically fit (applicants must submit his/her medical report together with the application form)

APPLICATION PROCEDURES:

- All applicants are required to complete the MTCP application form available at www.mtcpcoms.kln.gov.my/mtcpcoms/
- Application forms must be complete, and endorsed by the Ministry of Foreign Affairs / Focal Point (responsible for the MTCP Programme) in the applicant's respective country.
- Subsequently, applicants are required to submit three (3) copies of the completed forms via Note Verbale to the Malaysian Embassy / High Commission in the respective countries via the Ministry of Education of their respective countries
- Submitted application form must be accompanied by the candidate's copy of passport/colour copy of passport, current passport size coloured photo and medical record.

NOTIFICATION:

- Applicants who do not receive notification prior to the commencement of the course can assume their applications have been deemed unsuccessful.
- No written notification will be sent to unsuccessful applicants.
- INCOMPLETE/OR UNENDORSED FORMS WILL NOT BE PROCESSED.

VISA & VACCINATION:

- It is mandatory that all MTCP participants adhere to the Visa With Reference (VWR) application procedure to enter Malaysia.
- Person seeking to enter Malaysia must be in possession of valid passport or other internationally recognized travel document and visa if required. Participants should ensure that their Passport or other travel document must be valid for at least 6 months beyond the period of stay allowed in Malaysia
- Upon receiving the colour copy of passport, current passport size coloured photo and acceptance letter from the selected participants, successful participants are required to submit a coloured photocopy of the first page of their valid passport to the Training Institution/programme organizer who will apply for VWR at the Department of Immigration in Malaysia for immigration processing and obtaining specific VWR Approval Letter for the participants.
- Upon approval, a copy of this VWR Approval Letter will be forwarded to the participants who will subsequently need to collect their respective VWR from the nearest Malaysian Mission.
- Participants who receive the specific VWR Approval Letter are required to obtain a VWR stamp at the specified Malaysian Mission before entering Malaysia.

NOTE:

- All participants must arrange for their own visa and vaccination prior to their travel. Expenditures on all visa-related fees, airport-tax/airport user's charge, transit insurance, excess luggage, travel tax, transit fees, domestic passenger terminal fees, phone chargers, private purchases, etc. are BORNE BY THE PARTICIPANTS. This also applies for medical check-up vaccinations prior to travel to Malaysia.
- Participants from yellow fever endemic areas including diplomatic and official passport holders are required to take a mandatory vaccination for yellow fever at least ten (10) days prior to their departure to Malaysia and required to produce a Yellow fever Vaccination Certificate at the entry point in Malaysia.
