2. CURRICULUM

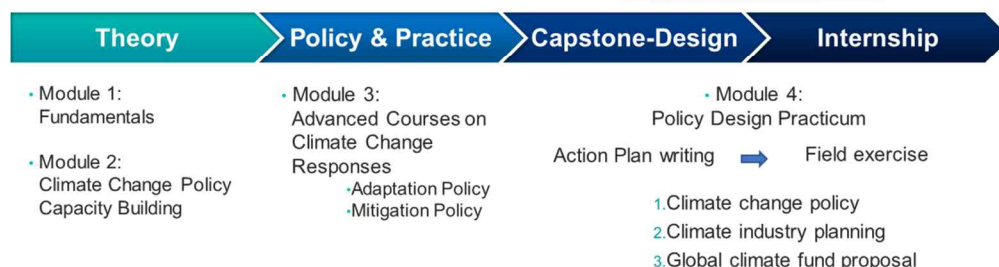

1) Curriculum

This program aims to enhance the students' ability to develop, integrate, and implement solutions to key challenges of climate change faced by developing countries. This curriculum provides the students with:

- a holistic understanding of climate change adaptation policy and greenhouse gas mitigation policy
- knowledge on modelling works related to climate change for evidence-based policy decision, including the system dynamics model
- practical skills to become an effective leader in climate change negotiations and conflicts resolution, and in accessing global climate change financing mechanisms
- experience working with professionals to formulate climate change policy and funding proposals through capstone design projects, internships, and seminars

Aimed at nurturing field-oriented policy experts, this program is comprised of four modules.

“ Field-oriented policy experts ”

Modules	Types	Course titles	Credits
Module 1 Fundamentals	Core Requirements	Climate Change and Sustainable Development	3
		Environmental Statistics and Data Analysis	3
		Policy Analysis & Decision-making	3
Module 2 Climate Change Policy Capacity Building	Major Requirements	Science of Climate Change	3
		Economics and Finance of Climate Change	3
		Climate Change Diplomacy & Law	3
		Negotiation and Communication of Climate Change	3
Module 3 Advanced Courses on Climate Change Responses	Major Requirements	Climate Industry	3
	Major Electives (Select courses)	Greenhouse Gas MRV I (Energy/Industrial Process)	3
		Greenhouse Gas MRV II (Agriculture/LULUCF/Waste)	3
		Model study on Greenhouse Gas Reduction	3
		GHG Reduction Technologies and Policies	3
		Adaptation Policy to Climate Change	3
		Prediction and Assessment of Climate Change Risk	3
		Risk Management and Prevention in Climate Change	3
		Disaster and Restoration of Climate	3
Module 4 Policy Design Practicum	Core Requirements	Capstone Design Project	1
		Internship	1
		Seminar on Negotiation on Climate Change Issues	1
		Thesis	0

* The above curriculum is subject to change.

In particular, the Integrated Capstone, Internship, Thesis (CIT) program (Module 4) offers a unique experience where students can combine their theoretical knowledge learnt in the classroom with field experiences in climate change organizations. All students will take part in the Integrated CIT program, where students prepare their Action Plans through Capstone, gain experiences from Internship, and develop the experience into a thorough evidence-based policy proposal in Thesis. CIT is offered under three themes, climate change policy development, climate industry planning, and proposal writing for global climate fund.

2) Graduation Requirements

Completion of 36 credits (including 12 required courses and 3 elective courses)

* A minimum of GPA 3.00 (B0)/4.5 or above

* Completion of the master's thesis

III. TRAINING INSTITUTE

1. GENERAL INFORMATION

1) About Hallym University

According to legend, Han(翰) is defined as an imaginary bird, which flies above other birds and can see the world widely. Hallym(翰林) defines a group of men of virtue. During the Tang dynasty in China, people used this bird as a symbol to describe a man of great erudition and virtue and used to call the group of these great men of all times and countries gathered together “Hallym(翰林)”. Since we are the university sets on the aim of Hallym(翰林), the utmost intellectual people, the name of our university originated from this. The Han-Bie Spirit (翰飛精神) is the spirit of Hallym University representing the outstanding students of our school who lead the flow of global events with high and wide discernment on top of others who are pursuing materialistic aspects of life. Hallym University is cultivating students of rich character and creative thinking, and of advancing academic and cultural promotion. As a result of this education, we foster a positive attitude in our students as they address a changing world, in order to promote research and education in close cooperation with other research institutions at home and abroad. Also, we endeavor to produce students who will contribute to their own individual development, national prosperity, and, ultimately, to the welfare of all people.

2) Graduate School of International Studies (GSGC)

Graduate School of Global Cooperation (GSGC) was established in 2017. GSGC aims to be a global campus for the local and global communities, which provides talented students with the multidisciplinary knowledge and expertise that will assist them as leaders in the field of global cooperation. GSGC endeavors to produce graduates who are capable of contributing to the development of the local communities through building a global network with senior government officials/professors/teachers and government agencies/universities/research institutes throughout Asia.

VI. PREPARATION FOR COUNTRY REPORT

1. GUIDELINES FOR COUNTRY REPORT

A Country Report is an in-depth report that contains an analysis of the current climate change policy issues facing your countries. The KOICA-Hallym Scholarship Program includes a Workshop on Country Report Presentation where participants have an opportunity to share these issues with other participants and Korean experts. Throughout the workshop as well as the entire coursework, you engage in debates and discussions to resolve them.

A Country Report is directly connected to the Capstone Design Project in Module 4. In the Capstone Design Project, students are requested to revisit the climate change policy issues they presented in their Country Reports, and develop practical measures to apply the knowledge, technology and experience to your worksite.

Students are requested to prepare and submit Country Report individually or as a group to GSGC via e-mail at gsgc@hallym.ac.kr no later than **July 20, 2019**. The Country Report should be in MS PowerPoint or Word format. The length of the report should not exceed twenty (20) A4-sized pages. The report should be written in English and double-spaced. All participants are required to give a 15-minute presentation of their Country Report individually or as a group on **August 27, 2019** at the **Country Report Presentation Workshop**. For more effective presentations, a projector with a computer will be available (PowerPoint presentations are preferred).

2. TOPICS TO BE COVERED

- Background of country: population, GDP and geographical information
- Information on your organization: Introduce your Ministry/Department/Bureau and its role in climate change policy in your country
- National System for climate change management: Provide the institutional arrangements for Green House Gas (GHG) mitigation and adaptation including the roles of all participants, number of employees, and yearly budget, etc.
- Climate change responses: Describe national plans, key issues on the following:
 - Adaptation: needs and urgent issues, strategic policies/ ongoing projects (scope, objectives, methodology, budget, staffing, etc.)
 - Mitigation: GHG reduction targets regarding the Intended Nationally Determined Contributions (INDCs report), needs and urgent issues, strategic policies/ ongoing projects (scope, objectives, methodology, budget, staffing, etc.)
