PUBLIC-PRIVATE PARTNERSHIP(PPP) FOR INFRASTRUCTURE PROJECTS

7 TO 11 OCTOBER 2019

Sponsored by the

SINGAPORE COOPERATION PROGRAMME

under the

SINGAPORE COOPERATION PROGRAMME TRAINING AWARD

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, over 127,000 officials from more than 170 countries and territories have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Ministry of Foreign Affairs, Singapore.

Course Objectives

Through a study of successful PPP markets in Asia, this course aims to build a policy framework that can leverage on the strengths of the PPP approach, and examine the role of local financing for PPPs.

Synopsis

Topics to be covered include:

- Singapore's policies and regulatory frameworks for PPP developments
- Effective regulations and enabling legislation
- Financing model and risk assessment
- Contract management

Methodology

The course will be conducted in English through classroom lectures, facilitated discussions, and site visits.

Duration

The course will be held from **7 to 11 October 2019**.
