

TECHNOLOGY AND COURTS OF THE FUTURE

27 TO 31 MAY 2019

Sponsored by the

SINGAPORE COOPERATION PROGRAMME

under the

SINGAPORE COOPERATION PROGRAMME TRAINING AWARD

to be conducted by the

SINGAPORE JUDICIAL COLLEGE

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, Singapore has sponsored training courses and study visits for over 125,000 officials from more than 170 countries. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

Singapore Judicial College

Established under the auspices of the Supreme Court of Singapore, the Singapore Judicial College (SJC) is dedicated to the training and development of local and international judges and judicial officers, using the Singapore legal system as the basis for training and sharing of knowledge and ideas. SJC provides continuous judicial learning, inspires research and has been a test bed for innovation in judicial studies and practices to enhance the competency and professionalism of judges and judicial officers.

Course Objectives

Through the lens of the technological road-maps of the Singapore judiciary, this course will enable participants to develop a sharper sense of the challenges involved in conceptualising, developing and implementing court IT solutions, as well as keener sensitivity to the features of a conducive operating environment that supports such solutions. It will equip participants with the ability to strategise effective and innovative plans to implement IT solutions for their courts of the future.

Synopsis

Topics to be covered include:

- Surveying the digital landscape for the courts of the future and identifying the challenges in implementing court technology
- Introduction to and demonstration of specific court IT solutions
- Challenges in conceptualisation, development and implementation of such IT solutions
- Features of a conducive operating environment to support the use of IT in the courts
- Strategies for the implementation of IT solutions for the courts of the future

Methodology

The course will be conducted through lectures, case studies, class discussions and presentations.

Duration

The course will be held from **27 to 31 May 2019**.
