

UNDERSTANDING PORT OPERATIONS AND MANAGEMENT

24 TO 28 JUNE 2019

Sponsored by the

SINGAPORE COOPERATION PROGRAMME

under the

SINGAPORE COOPERATION PROGRAMME TRAINING AWARD

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, Singapore has sponsored training courses and study visits for over 125,000 officials from more than 170 countries. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

Course Objectives

The course covers aspects of planning, organising and use of resources to ensure high service levels for port users.

Topics

- Roles and functions of ports
- Planning and operations – convention cargo terminal
- Container terminal operations
- Measuring port productivity
- Human resource development

Methodology

This course will be highly engaging and experiential. Besides formal lecturing, activities include open discussions, group work, experiential learning journey and other learning methodologies. Participants will have adequate opportunity to share their experiences, learning points and challenges during the course.
