**You are welcome!!**

“Digital Transformation (DX) is a hot topics here in Japan and all over the world now. DX is likely to solve those problems or expand the potential. In this course, you may be inspired by various approach, such as “Central/Local Government initiatives,” “Solution aspect” and “technology aspect.”

“Digital transformation becomes an important key to accelerate toward achieving SDGs now. So, it would be really great if we could learn each other about the utilization of digital technologies into society through this program.”

“Hello, friends! I hope that you will get some clues to promote digital transformation.  
We are looking forward to receiving many applications.”

Course Leader  
(Mr. Naito Masakazu, Japan  
Telecommunications  
Engineering and Consulting  
Service (JTEC))

Course sub-leader  
(Mr. Suzuki Katsuyoshi,  
(JTEC))

Program Officer  
(Mr. Fujino, Taichiro, JICA Tokyo)

Program Officer
